18. IMPORTANT NOTES

- During the course of the subject inspection, no attempt was made to ascertain whether any Managing Agent has complied with the detailed accounting requirements of the Auctioneers and Agents legislation or whether the prescribed accounting and prescribed financial statement requirements are being complied with by the Owner's Corporation. As these requirements are particularly complex, an additional inspection by a specially trained inspector would be necessary before we would report same.
- The information contained in this report was extracted from the books and records of the Owner's Corporation and, so far as was possible, from conversations with officers of the Owner's Corporation.
- Special procedures were followed to minimise the possibility of records not being made available for inspection. However, your attention is directed to the possibility that all of the Owner's Corporation Records may not have been made available for inspection or, alternatively, that the records may not have contained all of the information of interest to a Purchaser or Mortgagee.
